

Product Highlights

High-Speed Networking

Gigabit ports allow you to connect up to five devices for fast file transfers and smooth media streaming

Save Energy Automatically

EEE compliance reduces energy consumption without sacrificing performance while cutting down on your power bill

Eco-Friendly and Economical

Economical yet innovative design runs cool and quiet, making for an unobtrusive addition to the workplace

DGS-1005A

5-Port Gigabit Easy Desktop Switch

Features

Connectivity

- Five Gigabit Ethernet LAN ports for high-speed wired connections

Green Ethernet Features

- Reduces power to a port when no link is detected
- Adjust power to a port by detecting the length of the connected Ethernet cable
- Save power with 802.3 Energy Efficient Ethernet

The DGS-1005A 5-Port Gigabit Easy Desktop Switch is part of D-Link's new series of SOHO devices that make use of D-Link's Green Technology, providing energy savings, reduced heat, and a longer product life without sacrificing performance or functionality. It provides five Gigabit ports for easy expansion of your network and a quick way to upgrade your network to Gigabit connectivity. An energy-efficient power adapter (Energy Level VI qualified), minimized use of harmful substances (RoHS compliant), and recyclable packaging make this switch truly environmentally friendly.

Fast and Reliable Networking

The D-Link DGS-1005A 5-Port Gigabit Easy Desktop Switch's Gigabit Ethernet ports provide high-speed wired connections for up to five PCs or other devices. The DGS-1005A QoS feature prioritizes network traffic so that time-sensitive data, such as online gaming or digital video streaming is delivered efficiently for the best possible performance. Even during bursts of high data traffic, the DGS-1005A consistently provides your network with a reliable connection.

Cost-Efficient Solution

The simple and compact design of the DGS-1005A makes this switch an easy addition to any network. D-Link provides a high value for money product, without sacrificing quality. Additionally, the DGS-1005A 5-Port Gigabit Easy Desktop Switch supports 802.3 Energy-Efficient Ethernet that can automatically save power usage based on data activity and transmission distance, saving on your electric bill.
